## Product designation

**Fire Factory Australia, Model FFA-765, 10 year sealed (non-replaceable) lithium battery powered, silencing/hush facility, wireless interconnectable, photoelectric smoke alarms**

(Refer to the Schedule/enclosures for further specified details)

## Agent/distributor

Fire Factory Australia  
10 Victoria Street, SMITHFIELD, NSW, AUSTRALIA, 2164

## Conformance criteria and evaluation

The Fire Factory Australia, Model FFA-765, 10 year sealed (non-replaceable) lithium battery powered, silencing/hush facility, wireless interconnectable, photoelectric smoke alarms has been evaluated and verified as conforming with the relevant requirements of the following criteria.

1. Australian Standard AS 3786:2014, 'Smoke alarms using scattered light, transmitted light or ionization' incl. Amdt 1 (27 August 2015) / Amdt 2 (30 October 2018).

## Limitations/conditions of conformance

Limitations/conditions of conformance, where identified on this certificate, are derived from qualifications from evaluation(s) for conformity and/or other related technical documentation. All details with respect to design, assembly and installation instructions and restrictions should be checked against the producer's current technical manual/data sheets and the requirements of the Authority having Jurisdiction.

This certification is issued within the scope of CSIRO Verification Services – Rules governing ActivFire Scheme and is valid only for the product(s) as submitted for evaluation and verification of conformity, subject to the following conditions.

- Reference to details, limitations and requirements, where documented as a schedule/enclosure with this certificate.
- The Registrant is responsible for their attestation of conformity and ensuring that on-going production complies with the conformance criteria defined in this certificate.
- This certificate will not be valid if any changes or modifications are made to the product which have not been notified and validated by CSIRO Verification Services.
- This certificate is subject to periodical re-validation upon verification that all requirements, as determined by the conformity assessment body, continue to be satisfactorily met by the Registrant.
- This certificate may only be reproduced in its published form, without modification and inclusive of all schedules/enclosures.
- Any changes, errors or omissions, must be submitted in writing and if necessary or requested, substantiated with relevant evidence.
- Any representations, such as advertising or other marketing related activities or articles shall reflect the correct contents of this certificate and conform with all relevant trade practices and consumer protection legislation and regulations.
- Any terms or conditions of use as applicable to content and documentation as published or accessed through web sites administered by the CSIRO Verification Services.

## Producer's description

The Fire Factory Australia, Model FFA-765, photoelectric smoke alarms is a low profile, circular styled, 3 Vdc self-contained smoke alarms intended for use in residential dwellings.

The Fire Factory Australia, Model FFA-765, smoke alarm senses smoke using photoelectric principle. An electric buzzer/horn provides an audible alarm signal when the smoke alarm senses smoke which exceeds a predetermined level. When the smoke level drops below the alarm level, the buzzer/horn is de-energised.

A self-test facility is provided by means of a button. If the button is depressed an alarm signal is emitted. The Fire Factory Australia, Model FFA-765, smoke alarm also incorporates a 'silence button' feature. According to the manufacturer's instructions, pressing the hush button reduces the smoke sensitivity of the smoke alarm. The sensitivity is reduced for approximately 10 minutes, at which time the smoke alarm automatically returns to normal operation.

The Model FFA-765 is fitted with wireless communication interface only. It can interconnect up to a maximum of 22 devices (wireless).

## Technical specification

The following details are a representative extract of the technical specification for the Fire Factory Australia, Model FFA-765, 10 year sealed (non-replaceable) lithium battery powered, silencing/hush facility, wireless interconnectable, photoelectric smoke alarms and may be subject to change. Complete and current details should be determined from the designated producer's technical manual/data sheets.

### Schedule of variant designations

The following is a schedule of validated variant designations of the certified/listed equipment.

Variant		Description
Type	Ident.	
Model	FFA-765	10 years sealed (non-replaceable) lithium battery powered, silencing/hush facility, wireless interconnected, photoelectric smoke alarm

### Schedule of properties/characteristics

The following schedule is an extract of physical and operational properties/characteristics of the certified/listed equipment.

Smoke sensing type:	Type A photoelectric
Main power source:	Built-in 3 Vdc lithium battery (no replaceable and not rechargeable)
Battery list:	Huiderui CR123A
Software version:	V1.0
Interconnectivity:	Wireless (up to 22 devices)
Operating temperature range:	5 °C to 40 °C
Operating humidity range:	0% to 95% RH
Alarm sound level:	85 dB at 3 metres minimum
Alarm condition:	Audible signal pattern (ISO 7731)
Silencing function:	Yes
Dimensions:	Ø110 mm × 42 mm (h)
Fixing method:	Screw fixing
Mounting method:	Wall and ceiling
