Table 1 below provides the schedule of services and fees for CSIRO's ActivFire® Scheme and does not include evaluation of conformity services by CSIRO's Fire Systems Laboratory. A quote will be provided for evaluation of conformity services by CSIRO's Fire Systems Laboratory.

All services are provided for the purposes of the CSIRO Verification Services, designated as the ActivFire® Scheme, and are subject to the scheme rules and payment of applicable Fees. Details of the scheme and its rules are available at https://vs.csiro.au/activfire/. The scheme rules and/or fees may be changed from time to time and changes will be published on the web site.

Effective 2-Feb-2026 , the following fees shall apply.

Table 1 ActivFire® Scheme fee table

Item	Service Description	Fee AUD[1,2,3] (ex GST)	Fee AUD [2, 3] (inc. GST)	Deliverable[4]
New products for an established and currently valid Registrant[5] business entity.				
1.	Establishing a new project including verifying the evidence of conformity from a RACE[6] for ***ONE*** new product.	$1,117.00	$1,228.70	Certificate of Conformity (CoC)[7] and listing of Product(s) on the Register of Fire Protection Equipment.
1.a.	Verifying the evidence of conformity from a RACE for subsequent new products associated with the established new project in item 1.	$445.00 per product	$489.70 per product	
2.	Establishing a new project including verifying the evidence of conformity from a RCAB[8] for ***ONE*** new product.	$1,313.00	$1,444.30	

[1] Fees disclosed above include a column for Australian Goods and Services Tax (GST) where applicable. GST is applicable in accordance with Australian statutory requirements.

[2] All Fees are subject to review from time to time and will be confirmed upon request at the time you request the Services. Any changes to fees will be published on the scheme's web site.

[3] Evaluation for Conformity, as required, shall be carried out by a Recognised Agency for Conformity Evaluation (RACE). Costs associated with Evaluations for Conformity are not included in the scheme's Fees and are subject to a separate agreement between you and the Recognised Agency for Conformity Evaluation.

[4] If your evidence of conformity does not meet the requirements for verification under the scheme rules, you will not be entitled to have the product listed in the Register of Fire Protection Equipment. In such cases the fees remain payable, and the deliverable will be notification to you that the evidence of conformity could not be verified.

[5] Registrant: The business entity, validated and registered under the conformity assessment scheme, as the Producer or Producer's Management Representative of certified products.

[6] Recognised Agency for Conformity Evaluation (RACE): An Agency for Conformity Assessment recognised by CVS as having the appropriate expertise and facilities for evaluating conformity and/or verification of conformity to determine that the specific product/system, as investigated, complies with nominated reference criteria.

[7] Certificate of Conformity (CoC): The document issued under the rules and procedures of the Conformity Assessment Scheme, indicating that a designated product is in conformity with specified requirements.

[8] Recognised Conformity Assessment Body (RCAB): Body which operates conformity assessment schemes of which one, more than one, or all the designated functional elements of its conformity assessment system are recognised by CVS.
