

# APRIL 2023 NEWSLETTER

## 2023 Revalidation

As most of you are aware, ActivFire's Certificate of Conformities (CoCs) are valid till the 30th of April each year and as such, a majority CoCs are now due for revalidation.

All registrants of a product certified by ActivFire, will now have received a Confirmation of Service Request (CoSR), for revalidation. If you have not received your CoSR please get in touch with us at [certification@csiro.au](mailto:certification@csiro.au).

Already, a large number of CoCs have been revalidated through to 30 April 2024. If you have not returned your CoSR, please do so as soon as possible. We require a minimum of **three** weeks to revalidate your CoCs.

## Standards and technical specification updates

ActivFire and CSIRO's Fire Systems Laboratory have published our Technical Specification TS015 (lead-acid batteries for FDCIE/EWCIE) and an associated advisory note (AN-001). You can find these documents on our [website](#).

ActivFire has also recently published an advisory note (AN-004) regarding the extinguishment of Li-Ion batteries. Click [here](#) to open the document.

A revision of AS 5062 was published in December 2022. ActivFire and CSIRO's Fire Systems Laboratory are currently drafting an updated technical specification to guide future evaluation and certification. Please keep an eye on our website for the publication of this updated technical specification and any related advisory note.

A new revision of AS 3786 was also recently published in February 2023. ActivFire and CSIRO's Fire Systems Laboratory are reviewing this updated standard and intends to publish an Advisory Note and Technical Specification. However, the new revision of AS 3786 will **not** been a reference document in the NCC 2022, which comes into effect on 1 May 2023 in most jurisdictions.

## Visits, conferences and tradeshows

In March, ActivFire's EO visited some of ActivFire's domestic customers and also attended Sydney Build Expo at which CSIRO was an exhibitor.

CSIRO Infrastructure Technologies will be exhibiting at this year's Fire Australia conference and tradeshow in Sydney on May 3 to 5, and ActivFire will be present. If you are in the area, do come say hi. Our stand number is 311.
